

Are you interested in helping other women find the missing piece in the puzzle of their fertility?

Billings Ovulation Method Basic Teacher Training Workshop #1

Tuesday evenings, via ZOOM

Oct 1, 15, 29, Nov 12, 26, Dec 10 (2024) and Jan 7 & 21 (2025)

7:30 am - 9:30 pm - Workshop

Become a Billings Ovulation Method™ Teacher!

Instead of a “one-size-fits-all” approach the Billings Ovulation Method™ works with each woman’s unique patterns of fertility & infertility in all circumstances & all stages of reproductive life. Women learn to identify their natural signs of fertility & infertility through charting, which is a reflection of her hormonal patterns. Billings Ovulation Method™ teachers of excellence look at each chart & think in patterns. The Billings Ovulation Method™ Basic Teacher Training Workshop (Part 1 of 2) is an in-depth, highly interactive study of the Billings Ovulation Method™. The objective of this program is to provide teachers-in-training with the scientific basis of the Billings Ovulation Method™ so that they can learn to confidently teach couples to plan & space their families, taking the guesswork out of preventing & achieving pregnancy.

Registration Fee: \$150.00

To register for the Basic Teacher Training Workshop Part #1 (or ask questions)
email Rose at: rosmary.heron@naturalfamilyplanning.ca
